RULE SUMMARY

The agency proposes to amend OAR chapter 436, division 050, "Employer/Insurer Coverage Responsibility," and OAR chapter 436, division 160, "Electronic Data Interchange," to establish a new process for maintaining and reporting proof of workers' compensation insurance coverage. Effective 7/1/2009, Senate Bill 559 eliminates references in ORS chapter 656 to the "guaranty contract" as an instrument for the insurer to maintain proof of coverage with the director. The revised statute refers instead to the "workers' compensation insurance policy." The proposed rules describe: a new policy-based proof-of-coverage and electronic reporting system, as well as the process for transition to that system; insurers' proof-of-coverage record-keeping requirements; and potential civil penalties for failure to provide timely reports to the director regarding coverage.

Request for public comment: The Workers' Compensation Division requests public comment on whether other options should be considered for achieving the rules' substantive goals while reducing the negative economic impact of the rules on business.

Other Authority:

Statutes Implemented: Oregon Laws 2007 chapter 241 (Senate Bill 559), affecting ORS chapter 656, primarily ORS 656.419, 656.423, 656.427, and 656.726

Need for the Rule(s): The agency is proposing changes to implement Senate Bill 559, affecting how insurers report proof of workers' compensation insurance coverage to the agency.

Documents Relied Upon, and where they are available: "Issues" documents presented to stakeholder advisory committee; advisory committee meeting minutes; and written advice. These records are available for public inspection in the Administrator's Office, Workers' Compensation Division of the Department of Consumer and Business Services, 350 Winter Street NE, Salem, Oregon 97301-3879, upon request and between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday. Please call 503-947-7717 to request copies.

Fiscal and Economic Impact, including Statement of Cost of Compliance: The following is a list of significant estimated fiscal/economic impacts on persons and organizations affected by OAR chapter 436:

- New policy-based proof-of-coverage and electronic reporting system
The agency projects that replacement of the guaranty contract with a policy-based reporting system will produce net savings for insurers and for the agency. Proposed changes will bring Oregon's proof-of-coverage reporting into alignment with other states, so insurers that do business in multiple states will not have to maintain separate reporting methods for Oregon. In addition, electronic data interchange of coverage data should be less costly than paper reporting (and many companies already report electronically). Oregon insurers now electronically report coverage data to the National Council on Compensation Insurance (NCCI). NCCI or another vendor can report to the agency for a small transaction fee. These fees range from approximately \$1.00 for a new policy to \$0.00 for an endorsement, and the agency estimates that postage and handling for equivalent paper reports are at least double the overall cost of electronic filing.
- The agency estimates that additional changes will not have any significant economic impacts on any persons or businesses, including small businesses.

How were small businesses involved in the development of this rule?

Insurers and service companies are directly affected by these rules, but insurers and service companies generally would not be small businesses as defined in ORS 183.310. Because coverage reporting helps the agency to ensure that Oregon subject employers have workers' compensation coverage, the rules may have an indirect effect on employers; however, the proposed rules have no direct economic impacts on Oregon employers.

The rulemaking advisory committee included members representing the interests of small businesses.

Cost of compliance effect on small businesses:

Estimated number of small businesses subject to the proposed rule:

None.

Identify the types of businesses and industries with small businesses subject to the proposed rule:

None.

Describe the projected reporting, record-keeping and other administrative activities required for compliance with the proposed rule, including costs of professional services:

Reporting: The proposed changes do not require increased reporting for small businesses.

Record-keeping: The proposed changes do not require increased record-keeping for small businesses.

Other administrative activities and costs of professional services: The proposed changes do not require increased administrative activities or costs of professional services for small businesses.

Extent of economic impact: None for small businesses.

Identify equipment, supplies, labor and increased administration required for compliance with the proposed rule:

Equipment: The proposed changes do not require the purchase of equipment to achieve compliance.

Supplies: The proposed changes do not require the purchase of supplies to achieve compliance.

Labor: The proposed changes do not require that small businesses hire additional staff to achieve compliance.

Administration: The proposed changes do not require increased administration to achieve compliance.

Extent of economic impact: None for small businesses.

Administrative Rule Advisory Committee consulted:

Yes, rulemaking advisory committees met on 1/25/08 and 3/10/08.

The agency asked the committee for advice on the economic impacts of the discussed changes, including impacts on small businesses.

if the data element is omitted or submitted in a format not capable of being processed by the division's information processing system.

(3) "Director" means the Director of the Department of Consumer and Business Services or the director's designee for the matter.

(4) "Division" means the Workers' Compensation Division of the Department of Consumer and Business Services.

(5) "Electronic Data Interchange" or "EDI" means a computer to computer exchange of information in a standardized electronic format.

(6) "Electronic Record" means information created, generated, sent, communicated, received, or stored by electronic means.

(7) "Establishing document" means an EDI transaction that reports coverage for one or more entities. Establishing document types may include binders, new policies, rewrite/reissue transactions, renewals, reinstatements, add jurisdiction endorsements, or add employer/location endorsements.

~~(7)~~**(8)** "FEIN" means the federal employer identification number or other federal reporting number used by the insurer, insured, or employer for federal tax reporting purposes.

~~(8)~~**(9)** "Header record" means the record that precedes each transmission for the purpose of identifying a sender, the date and time of the transmission, and the transaction set within the transmission.

~~(9)~~**(10)** "IAIABC" means the International Association of Industrial Accident Boards and Commissions, a professional trade association comprised of state workers' compensation regulators and insurance representatives (www.iaaiabc.org).

~~(10)~~**(11)** "Information" means data, text, images, sounds, codes, computer programs, software, databases, or the like.

~~(11)~~**(12)** "Industry code" means the code which indicates the nature of the employer's business, which is contained in the Standard Industrial Classification (SIC) manual published by the Federal Office of Management and Budget, or in the North American Industrial Classification System (NAICS) published by the U.S. Census Bureau.

~~(12)~~**(13)** "Insurer" means **the State Accident Insurance Fund Corporation, an insurer authorized under chapter 731 to transact** workers' compensation insurance **in Oregon**~~carrier providing coverage to an employer, or a self-insured employer.~~

~~(13)~~**(14)** "Mandatory data element" means an element that will cause a rejection of a transaction if the data element is omitted or submitted in a format not capable of being processed by the division's information processing system.

~~(14)~~**(15)** "Optional data element" means an element that an insurer should report to the director if the information is available to the insurer. Optional data elements will not cause a rejection if missing or invalid.

~~(15)~~**(16)** "Proof of coverage" means an electronic record or set of records identifying an insurer as providing workers' compensation coverage for a specific employer.

436-160-0060 Testing Procedures and Requirements

(1) Proof of coverage testing:

~~(a) Each transmission for test purposes will conform to the standards specified in OAR 436-160-0004, or as otherwise identified in the trading partner agreement. Test files will be evaluated in terms of whether the data was sent in the correct, standardized format.~~

~~(b) To gain approval to send production transmissions, the sender must be able to:~~

~~(A) Transmit records via electronic data interchange; and~~

~~(B) Accomplish secure file transfer protocol uploads and downloads.~~

~~(c) To initiate a test for EDI, the sender must contact the director.~~

~~(d) The sender must demonstrate the ability to send transmissions to the director that are readable, in the correct format, and can be processed through the division's information processing system. A successful EDI test is determined by the resolution of any consistently recurring fatal technical errors identified by the division such that:~~

~~(A) Transmissions are sent to the director without errors in the header or trailer record;~~

~~(B) Transmissions are sent to the director without transaction level technical errors; and~~

~~(C) The sender can receive and process the automated EDI acknowledgement transaction.~~

~~(e) To move from test to production, the sender must achieve 90% accuracy for transactions sent for a minimum of three consecutive transmissions during the test (i.e. 90% of the transactions must have been accepted by the division and the sender has received a transaction accepted acknowledgement). The director will consider the sender's anticipated volume of production transactions to determine the number of transactions per test transmission required.~~

~~(f) Once approved, sender must maintain the accuracy as defined in subsections (d) and (e) of this section. Failure to meet technical requirements may result in the revocation of EDI transmission approval.~~

DEPARTMENT OF CONSUMER AND BUSINESS SERVICES
WORKERS' COMPENSATION DIVISION
Proposed ELECTRONIC DATA INTERCHANGE Rules

~~(g) The director will inform the sender and insurer (if different) if accuracy standards for technical requirements fall below standards prescribed in subsections (d) and (e) of this section during production.~~

~~(h) During the EDI test phase, insurer will continue to submit filings via paper. Once the sender becomes approved and moves into production, insurer will not submit same transaction filings via paper. If a problem occurs with EDI transmission during production, insurer may return to paper filing to meet statutory filing requirements until the problem is corrected~~

(a) Senders conducting EDI transactions as of January 1, 2009, do not have to complete EDI testing. Insurers using an approved EDI vendor to submit proof of coverage data to the department do not have to complete testing as provided by this rule.

(b) Senders must obtain director approval to submit proof of coverage data via EDI transactions. Each sender must successfully complete the Secure File Transfer Protocol (SFTP) test and the format and structure test(s) detailed in the Oregon EDI Implementation Guide for Proof of Coverage to demonstrate ability to successfully transmit coverage data in the format specified in OAR 436-160-0004. The director will notify senders once they have successfully completed testing. Insurers must either use an approved sender or be approved as a sender to report proof of coverage via EDI starting July 1, 2009. If an insurer is not an approved sender, it must report through an approved sender until approved by the director for direct reporting of proof of coverage via EDI.

(c) The director adopts the Oregon EDI Implementation Guide for Proof of Coverage as the standard for EDI testing procedures and requirements.

(2) Medical bill data testing and transition to production:

(a) To initiate a test for EDI, the sender must contact the director.

(b) Each transmission for test purposes must conform to the standards specified in OAR 436-160-0004, or as otherwise identified in the trading partner agreement. Test files will be evaluated in terms of whether the data was sent in the correct, standardized format.

(c) To gain approval to send production transmissions, the sender must be able to:

(A) Transmit records via electronic data interchange; and

(B) Accomplish secure file transfer protocol uploads and downloads.

(d) The sender must demonstrate the ability to send transmissions to the director that are readable, in the correct format, and can be processed through the division's information processing system. A successful EDI FTP test is determined by the resolution of any consistently recurring fatal technical errors identified by the division such that:

(A) Transmissions are sent to the director without structural errors;

(B) Transmissions are sent to the director without transaction level technical errors; and

(C) The sender can receive and process the automated EDI acknowledgement transactions.

(e) To move from test to production, 80 percent of the sender's transactions must have been accepted by the division by the end of the testing period, allowing for corrected and

resubmitted transactions. The director will consider the sender's anticipated volume of production transactions to determine the number of transactions per test transmission required.

(f) Once approved, sender must maintain the accuracy as defined in subsections (d) and (e) of this section. Failure to meet technical requirements may result in additional testing requirements.

(g) The director will inform the sender and insurer (if different) if accuracy standards for technical requirements fall below standards prescribed in subsections (d) and (e) of this section during production.

(h) During the EDI test phase, insurer will not be required to file the same medical bill data via Bulletin 220. If the test phase is not completed satisfactorily, as detailed in (e) above, the insurer may be required to submit data for the period covered by the unacceptable test via Bulletin 220 standard, and then complete a new EDI test.

(2) Unless otherwise provided in these rules, the data elements shall have the meaning provided in the data dictionary pursuant to **under** OAR 436-160-0004.

(3) Transactions will be rejected if mandatory or required conditional data elements are omitted or submitted in a format that is not capable of being processed by the division's information processing system designated for proof of coverage transactions.

(4) Optional data element(s) in a transaction will be ignored if the optional data element is either omitted, or submitted in a format that is not capable of being processed by the division's information processing system designated for proof of coverage transactions.

(5) Unless otherwise provided in these rules, an insurer ~~approved for production transmissions will~~ **must** transmit proof of coverage via EDI, ~~and will not.~~ **Insurers may not** submit ~~like~~ paper documents to the director **without the director's express permission or as provided in OAR 436-160-0350(7)** ~~except as provided in OAR 436-160-0340.~~

(6) Changes or corrections to proof of coverage transactions must be filed within 30 days of insurer knowledge of the change to a required data field.

436-160-0340 Proof of Coverage Changes or Corrections

(1) Changes or corrections to proof of coverage information must be submitted pursuant to the standards referenced in OAR 436-160-0004.

(2) To report changes or corrections of an insured employer's name or address pursuant to ORS 656.419(4), or changes or corrections to other data elements, the insurer must transmit the appropriate transaction to specify what data is being changed or corrected.

(3) The insurer's policy number is used to assist in matching each transaction to the appropriate employer. When an insurer changes a policy number, the insurer must report that change with or prior to the next transaction submitted for that policy. Failure to report a change in the policy number will render future filings incapable of being processed by the division's

(c) Transmitting an establishing document transaction: binder, new policy, renew policy, rewrite/reissue policy, reinstatement, add location, add employer, or add jurisdiction. A renew policy, add location, or add employer transaction will only establish a guaranty contract if the data elements have not previously been transmitted, the employer FEIN is not a duplicate per section ~~(3)~~**(4)** below, and coverage for that unique employer FEIN has not been previously established by the reporting carrier. IAIABC ANSI 837 Medical Bill Reporting Requirements

1) Event reporting requirements:

Original medical bills: Report within 90 days of date paid.

Cancellations: Report immediately, as soon as payer knows that an original medical bill was previously sent in error. Report prior to replacement of an original bill with a revised bill (Replacement transaction).

Replacement: Report within 30 days of:

- a) Payer knowledge of change in claim administrator, location of service, or provider type;
- b) Payer action of paying an additional amount on a previously-reported bill; or
- c) Payer receipt of an overpayment from a medical provider on a previously-reported bill.

2) Data reporting requirements: See “**Medical Bill Data Element Requirement Table**” below.

3) The data must include all payments made during the previous 90 days for medical services.

4) Technical Requirements: See the Oregon EDI Medical Bill Implementation Guide for specifications on the Secure File Transfer Protocol (SFTP) requirements.

5) Data Quality: The director will conduct electronic edits for blank or invalid data. Affected insurers are responsible for pre-screening the data they submit to check that all the required information is reported, and is formatted correctly. See 436-160-0090, Acknowledgements, for a description of the acceptance/rejection protocol for all reported medical bills. The insurer is responsible for correcting and resubmitting all rejected transactions for which law or rule require filing, reporting, or notice to the director.

NOTE: M = mandatory; C = conditional element which becomes mandatory under the stated trigger; O = optional (must be reported if available)
